SECOND EMPIRE

HAS COME INTO BEING, SAYS A LONDON PAPER.

The London Chronicle, commenting upon the U. S. Supreme Court's decision in the Porto Rican cases, says:

"A second empire has been born from Anglo-Saxon stock. Henceforth there will be American subjects as well as American Citizens. To many minds the new departure will seem a decent from the lofty American ideals. On a broader view we see an expansion of a well ordered government, and the extension, in due time of reasonable liberty. The sovereignty conferred by the Supreme court's judgment, although technically irresponsible, is a moral responsibility of the kind Mr. Gladstone recognized when he spoke of the British Empire as a trust and function given by providence. It is such a spirit we may be sure the United States will administer to empire."

I Come to Stay.

When a man establishes himself in a legitimate business, it should be with a determination that he's going to stay.

I Started in to Stay,

And the thing I want is regular trade—steady satisfied customers, who come to me confidently and constantly. And the way to get and hold such customers is to treat them fairly and squarely.

I WANT TO STAY,

And in order to do so I am making some strong inducements just now to attract new customers, and the old ones get the benefit too, and I intend that every person who makes even one purchase here shall carry away and return a good impression of my Store and my methods.

That's the Way I Expect to Stay.

I HAVE THE BEST AND CHEAPEST LINE OF
Dry Goods, Shoes, Slippers, Men's Furnishing Goods and Hats

The Alumni Reception.

The closing of the Hickman College entertainments was given by the Alumni Association, at the residence of Mrs. Alice Ambler, on Monday evening last, and was one of the most enjoyable occasions ever tendered the friends of the institution.

The Association was well represented, and with its fifty or more members, presented a pleasant and congenial company.

As a result of excellent taste, on the part of those who were in charge, the decorations were profuse and lovely—predominating in the dining room where the distribution of potted plants, vases of flowers, and articles of artistic needle work, occupied every available place creating a scene most pleasing to the eye.

The "College Colors" of blue and gold, prevailed every where, even finding its way into the cream, which with other delicacies, was served during the course of the evening. Daintily and becoming costumes adorned the fair ones, while the gentlemen were immaculate in their attire. Surprising in the midst of this art of human mind and hand, was that of the Infinite One, whose infinite power showed itself in the bright, intelligent and beautiful faces that graced the occasion, making glad the hearts of the older ones present by recalling to mind tender memories of their youth when they too, fresh from the school room, with only the brightest of prospects before them, felt ready to brave the battle of life.

The principal feature of the evening was the "Flower Contest"—nine successful ones drew for the prize, which was won by Miss Ranney, one of the college instructors. Enlivened by sweet music from a band, seated on the veranda, the hours passed all too quickly, and the moment came when with an expression of thanks to the Hostesses, each bade the other good-night, expressing the hope mentally if not verbally, that they might meet again in the future.

Among the guests were: Mrs. McClain, Glasgow, Tenn.; Mrs. Mollie Prather, Newbern; Mrs. Bryant Cox, St. Louis, Mo.; Mesdames Latan and Pelham, of Fulton; Misses Clark, near New Orleans, La.; Miss Coleman, Adairville, Ky.; Miss Sellers, Fulton, Ky.

H. C. Pearson, the contractor, reports the Slough bridge on the Clinton and Hickman road, completed.

R. H. Flatt, candidate for the Legislature, is announced to open his canvass, at Fulton, Saturday the 8th.

Sergeant Will Randle, of the 40th U. S. Inf., which regiment was mustered out in San Francisco, last week, arrived in Hickman, yesterday, from the Philippines. Mr. Geo. Miller, Ed. Knorr, and perhaps other Hickman boys, are expected back to-day.

Prof. H. W. Cook is again in trouble for attempting to cure one afflicted with consumption, by this method. He thinks his prosecution is persecution. The case is now being tried.

The Crystal Home Talent Club will play the well known drama, Ten Nights in a Bar-room, at Mt. Mansel Church, Saturday night, June 8, for the benefit of the Methodist parsonage. First class talent, good music, good under, everything in first class style. Admission 25c. Children under 12, 15c.

T. J. Lowrey, P. C.

Noel Hall, the Fulton man, who was fined \$125 at the recent term of the Fulton circuit court, for running a house of ill repute, has written a letter to a friend in which he expresses his gloom at being in the commonwealth, not only out of a fine, but at the same time out of a lot of freeboard at the county jail. For such a chap the hard labor provision of the statutes ought to be given a thorough test. — Clinton Democrat.

No Longer a Protectionist.

Speaking at a luncheon tendered in his honor in Montreal, Jules Siegfried, the French statesman now visiting this country, said President McKinley told him that he was no longer an ultra protectionist. The United States had arrived at that period in its history when it was necessary to go out in the world and secure markets, and the necessity for heavy protection had disappeared.

SENSATIONAL SUIT.

A \$25,000 damage suit has been filed in the circuit court at Paducah which promises to be a very sensational one. J. A. Sprouge, of Marshall county, is plaintiff and Lee Waters defendant.

Waters some time ago charged that Sprouge fired into his home, maliciously and had him imprisoned. Al Foley now in jail under the charge of grand larceny has disclosed the fact that there was a conspiracy to injure Sprouge.

Sermon for Those Given to Depreciate Themselves.

[Copyright, 1901, by Louis Klopsch, N. Y.]

Expel first from this parable of the talents the word "usury." It ought

The most difficult thing in the world is to make an accurate estimate of ourselves. Our enemies rate us too high, our enemies too low. To find out what we are worth morally is a task that no man can undertake. We are apt to measure ourselves. We are proud to be, this is not fair, and we are ashamed to be, this is dull, very good or very bad. Indeed there are no human scales that can be used to measure our moral weight, nor is there a standard by which we can measure our exact intellectual height, or our exact moral strength. Our real stature or our height, but it will be no evidence of equanim in any of us if we say that we are tall, or that we are short, or that it and finding what is, is what use shall we make of it? The most of our life is spent in the question of only one talent, do as the man spoken of in the parable, they hide it. It is not the man who has the talent brought it out for use before men. This century is half past and correction is being made. The world of their letters 1520 the world would be one of the outskirts of heaven. It is the question. What is your one talent?

Or is your talent an opportunity to set a good example? The person doing right under adverse circumstances will recompense more than many treasures that are lost. The man who has never been taken of lovely old folks. Most of us, if we have not such a one in our own house now, have in our memory such a saint. We went to school with him, or lived with him. He was a good example of all the virtues. They were perpetual evangelists, by their soothing words, by their hopefulness of spirit, an inexpressible help. I cannot see how heaven could make them any lovelier than they are now. I cannot see how heaven could make them any more beautiful.

There is a daughter in that family whose father is impatient and the mother generous. The passage of many years does not always improve the father and the daughter, but it makes a more disagreeable old folks. Some of them forget that they were young themselves, and they become untidy

[illegible]

It will be recalled that his money was not the only thing Mr. Grievson had so arranged his business that he could afford to be as open as to catch all but the brain trust of the nation in the misleadings of the subsidy grist. He has been so open that he has been able to get out of the proposed legislation retroactive pay for the subsidies he has received. He has done this either by connivance or an intuition that he was in a position to discount miracles, he has had inside information and had his interests in a position to rake down the subsidies. He has no doubt been the prince of grabbers. He dictated the bill. He enlisted its powerful and wealthy supporters, he formed the reports of committees and inspired the speeches of the subsidy champions. He has been the king of the subsidy trough. He was interviewed for the *Tri-Week* when interviewed for the *Tri-Week* information. Knowledge of what he has brought about in the alienation of national statesmen from their allegiance to the people, and of the manner in which he has been able to credit him and his movement to have the subsidy scheme.—Detroit Free Press.

Out of the conflicting opinions of the supreme court of the United States, it has been determined that it is painfully apparent, and that it is the constitutionality of the Foraker act as respects Porto Rico is upon this point.

Thus Porto Rico, the Philippines and the Hawaiian Islands are dependencies of the United States domestic territory for some pure and foreign countries for other purposes. Their commerce and industry are not to be completely destroyed by taxation as congress decide. For the purposes of the act they are not American territories.

This view is based on the fact that the United States administers the territories of the United States beyond the pale of the constitution and that they may enjoy its rights only as congress, the supreme authority in the premises, shall choose to extend them. There may be some doubt even as to the question whether the power of congress

Col. E. B. Tansil, of Dresden, is making the race for County Clerk of Hickman county.

Fulton is now putting in a system of sewers. The pipes, says the Leader, are there and about 30 feet already laid.

Governor Mcweeney, of South Carolina, has refused to accept the resignations of Senators Tillman and McLaurin.

If you want to show your lack of brains, imagine that you are right in all things and that all who differ from you are fools.

The girls against which this horrible threat and cruel deprivation are directed have not yet determined whether to go on a strike or get married.

A St. Louis pastor warns women against engaging in business. This domestic overlooks the fact that his hands must eat and drink and have clothes.

The Governor of Kentucky has issued a proclamation recommending the earnest attention of the people of the State to the Good Roads' convention, which is to be held at Frankfort on the 27th and 28th of June.

The administration has notified the Cubans that they must accept the terms of the Platt amendment to the constitution, whether they like it or not, and that the United States will remain in control until the amendment is accepted.

The phenomenon of the sliding tone is again manifesting itself in Butte, Mont. Large fishers have appeared in the streets, catching the granite. Changes of as much as a foot in the level of fixed objects have occurred.

Mr. W. S. Wheldon, Cashier of the First National Bank of Winterset, Ia., in a recent letter gives some experience with a carpenter in his employ, that will be of value to other mechanics. He says: I had a carpenter working for me who was obliged to stop work several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from our drug store and informed me that one dose cured him, and he is again at his work. For sale by Cowgill & Cowgill, druggists.

The China trouble seems now nearly closed. China has agreed to pay all asked of her, and the question now remains is how she is going to pay. All the countries engaged in bringing her to terms, however, are tired of the business and anxious to be quit of it, and what remains of trouble will be settled between Russia and Japan.

AROUND THE WORLD IN THIRTY-FOUR DAYS.

Paris, May 21.—Julius Verne author of "Around the World in Eighty Days," was interviewed by a correspondent at Amiens to-day regarding the effort he is now making for a record trip around the world. The famous author said the tour could be performed in from 33 to 34 days if perfect connections were made.

HANDSOME COUPLE.

A young Chicago man was engaged to a young Chicago woman. Both parties to the contract are described as handsome. Let us hope and believe that they were and are, however much that adjective is overrated. The young man got the scarlet fever, or it got him. A very bad case. "He going to die," said his despairing relatives. "He can't live," said the doctor, shaking his wise head. The young woman went out and got a marriage license and a clergyman. She was married to the moribund young man with the scarlet fever. Then it occurred to him that it would be foolish to die. He resolved to get well and he is getting well. We much prefer these stories that turn out happily. Not art, if you like to say so, but very comforting and comfortable.—New York Sun.

CHINA'S RESPONSIBILITY.

China's agreement to pay the 4 per cent interest on the indemnity demanded by the Powers, pending the payment of the principal, would seem to constitute a satisfactory settlement of existing difficulties and to call for the prompt withdrawal of the Chinese troops. The situation, however, remains of the greatest interest. It is now to be learned whether the Chinese Government is equal to the task of maintaining order without the backing of foreign troops. The fact is, however, that all fairness, China being credited with a willingness to protect the lives and property of foreigners and to promptly punish the offenders should there be a recurrence of the Boxer troubles.

Saved Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. H. Hayward, of Armonk, N. Y. "When all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well. I also used Dr. King's New Discovery for ordinary coughs and colds and for Coughs and Colds. 50c and \$1.00 bottles guaranteed by Cowgill & Cowgill. Trial bottles free.

JUSTICE TO EACH.

If so much had not been written about the era of good feeling now existing between the North and the South, after the war taken by the United Confederate Veterans in Memphis on the 1st day of the re-union would be little less than astounding. The report of the Historical Committee made on that day was unanimously adopted, yet no one is surprised.

As an acknowledgment of changed conditions and feelings by the survivors of the Confederates, the resolution points out the exact state of affairs as follows:

We Southern people once regarded Abraham Lincoln as one of the most disingenuous or craven that ever lived. Now, while we do not interpose the policy which he pursued, we honor him for his magnanimous sincerity, patriotism and ability. On the other hand, the people of the North once regarded Jefferson Davis as the incarnation of selfishness and disloyalty. Now, whenever disarmed of prejudices, they regard him using the language of one of their ablest scholars, "as one of the purest, ablest, most patriotic and most consistent of all American statesmen."

The paragraph followed a report on the practicability of a history being published which would state both sides of the Civil War and the causes preceding it so that no prejudice should color the facts.

THE SOUTH'S ADVANCEMENT.

The Texas oil discoveries will prove probably the greatest advertisement the South has ever had. Everywhere this oil will be accepted as simply another proof of the vast undeveloped resources of the whole South, and every fortune made in Texas will be an incentive to the business men of the world to search the South for other hidden riches. At last the real, broad, world-wide influence of the South is getting under way, and Texas is giving to a mighty impulse.—Manufacturers Record.

A Good Cough Medicine.

It speaks for itself. Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my family both for ordinary coughs and colds and for the cough following a gripe, and find it very efficacious." For sale by Cowgill & Cowgill, druggists.

HAILSTONES THAT

WEIGHED A POUND.

Mr. J. T. Tichenor, who lives about three miles north of town, brought into this office on Saturday about fifty hail stones which fell in his vicinity on Friday at noon. The hailstones, when picked up, were about the size of hen eggs, ten weighing one pound. Mr. Tichenor informs us that the hail came down in such torrents that much damage was done to growing crops, fruits and window panes. He had just put metal roof on his barn which was almost completely ruined by the hailstones. The roof was dented all over and some holes were made by the hail. —Nelson Record.

SMART MAN ADDED.

Judging from some very positive statements in the Lake County Advocate, the editor, Mr. Judge Harris has been converted to the magnetic healing cult, which emanated from Metcalf, Mo. We gather from the article that the editor's father, the noted financier "Square Harris," received great benefit from the magnetic healing during his recent pneumonia complaint, while the editor of the News-Banner knows little or nothing about magnetism we haven't the slightest confidence in it, nor would we believe in them if we were to see a dozen, or even forty of their cures.

A Sprained Ankle Quickly Cured.

"At one time I suffered from a severe sprain of the ankle," says Geo. E. Cary, editor of the Guide, Washington, Va. After using several well recommended remedies without success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed. Sold by Cowgill & Cowgill, druggists.

SENTIMENT IN KENTUCKY.

Henry Watterson was in New York a day or two ago and while there was briefly interviewed by the Sun which inquired for some. Asked if he thought Mr. Hill would be the Democratic nominee for President he replied: "One might as well talk of the crops of 1920 as the nominees of 1901." "Is there any sentiment for Hill in Kentucky?" was the next question, and this was the answer: "There is no sentiment in Kentucky for anything."

FOR IRELAND'S FREEDOM.

New York, June 2. The Canadian Ettruria, which has been anchored in the port of New York, came to her dock early this morning.

She is the only ship of the St. Patrick Roman Catholic College at Carlow, Ireland. He said that he had been ordained as a priest and had charge of New Ross and Blackwater. He explained that he had severed his connection with the Catholic Church because he could not preach peace when he believed that only war could save his country from being depopulated.

"Father" P. is a written book on the subject of Ireland and sold Irish subjects. He says that while here he will work for the freedom of Ireland.

THE NEW STEAMBOATS.

St. Louis Globe-Democrat: The subscrip-
tion for the establishment of a
new line of new line draft steamboats
between St. Louis and New Orleans are
coming in rapidly. The need of such a
line is undoubtedly great. One of the
reasons why the railroads have made
such tremendous gains over the steam-
boats in the Mississippi Valley in the
past twenty years has been that the
steamboatmen have kept pace with
their rivals of the railroad in adopting
new ideas.

OFFICE AT F. & M. BANK.

A rural contemporary tells this on
one of its citizens. This is the way he
wrote to her: "I have not had a line
from you in three weeks. Has your
throat ever?" And this is the
way she answered him: "John: Han't
you heard that I am on a sick bed
where I am slowly a dying, and can't
write a line to save my life, you fool
you."

ENTIONS LOUISVILLE.

In the matter of that Confederate Re-
union Memphis bit off more'n she could
chew. Next year Dallas—only half as
big as Memphis—will simply be choked
to death.—Louisville Times.

One may reasonably expect to hear
some "language" from Rev. Sam Jones
pretty soon. The General Assembly
of the United Presbyterian Church, Des
Moines, has decided that persons who
belong to secret orders can not go to
Heaven, and on the night of the very
day this decision was reached Rev. Sam,
who had previously ridden the goat,
mounted the camel of Aale Temple of
the Mystic Shriners.

A Terrible Explosion

Piles. 50c at Coggill & Coggill's.

SAFEST TRAVEL.

The Louisville Post says: "Statistics
show that there is less loss of life on
steamboats than any other highway or
conveyance of travel. As an example
during the past two seasons, when the
rival Cincinnati packets carried thou-
sands of people to gether with the three
excursion boats at this port, there has
never been a life lost or an accident.
With the rigid rules and restrictions
which govern the United States in-
spected steamboats are required to carry
everything in the line of life preservers,
which can always be used at a moment's
notice in case of accidents, which are
few, and as all steamboats are inspected
every year, it is a guarantee of safety."

FRIENDLY RUSSIA.

As bearing upon the new policy of
William of Germany, looking to the
formation of a European trade alliance
against the United States, the recent
cable news from St. Petersburg is the
effect that there is no probability of
Russia joining such an alliance is some-
what gratifying.

It is entirely logical that the conduct
of the German forces in China, reflect-
ing the Kaiser's aggressive spirit and
greed for Chinese territory, should have
provoked resentment in Russia. The
German policy in China was directly
aimed at Russia's interests. It was as
distinctly anti-Russian as that of Great
Britain. It could not but convince Rus-
sia that in any great European crisis
she must inevitably regard Germany as
an enemy, seeking to diminish Russian
prestige and to gain advantage at Rus-
sia's expense.

A GREAT NEWSPAPER.

The Sunday edition of The St. Louis
Republic is a marvel of modern news-
paper enterprise. The organization of
its news service is world wide, complete
in every department; in fact, superior to
that of any other newspaper.

The magazine section is illustrated in
dainty tinted colors and splendid half-
tone pictures. This section contains
more high class literary matter than any
of the monthly magazines. The fash-
ions illustrated in dainty colors are es-
pecially valuable to the ladies.

The colored comic section is a genuine
national maker. The funny cartoons are
by the best artists. The humorous
stories are high class, by authors of na-
tional reputation.

Sheet music, a high-class, popular song
if furnished free every Sunday in The
Republic.

The price of The Sunday Republic by

TO ALL PERSONS HAVING FARMING, TIMBERED OR MINERAL LANDS, ETC. FOR SALE.

The Nashville, Chattanooga & St.
Louis Railway proposes to use its best
efforts to induce a good class of immi-
grants to settle in territory contiguous
to its line, and to engage the attention
of capitalist seeking Manufacturing
Sites or Mining Property. It therefore
offers the support, the co-operation and
the assistance of the people of every
county through which its lines pass.
The management earnestly requests that
all persons who have farms for sale, or
lease, those who have timbered lands,
water power or mineral lands for sale,
will send a brief description of same to
the railroad agent nearest them giving
the prices and terms of sale. The prices
must correspond with the prices asked
of local buyers. The management does
not propose to aid in selling land to im-
migrants at exorbitant or speculative
prices.

Large tracts suitable for colonization,
at low prices, are especially wanted.

FEAR AMERICAN COMPETITION.

There is serious discussion on the
Continent of the proposition to form a
union to not to American trade. Eval-
talk of such a boycott shows how much
American competition is feared! It is an
admission of American superiority. The
London Times sounds the idea. It says:
"Our old friend, the Continent of Europe,
could not be got to adopt it," and adds:
"If, by any conceivable infatuation, any
of the continental powers were to com-
bine for such an end, the British
Empire would leave them to their fate,
and would continue to trade with its
American kinsfolk. Our interests, tra-
ditions and inclinations all dictate that
course to us. With the markets of
Great Britain and her colonies remain-
ing open, the suggested world boycott
against America does not wear a hope-
ful aspect."
